SUMMARY

Computer Science postgraduate (M.Tech) focused on full-stack development, backend systems, and secure applications. Experienced in building web-based tools and authentication systems using Java, Python, React, Spring Boot, and MongoDB. Strong in problem-solving and adaptable to new technologies, with an interest in developing practical software solutions.

SKILLS

Languages: Java, Python, JavaScript, C

Backend: Springboot, Node.js, Express, REST API

Frontend: React, HTML, CSS, TailwindCss

Databases: MySQL, MongoDB, PostgreSQL

Tools: Git, GitHub, Docker

Concepts: Data Structure and Algorithm, OOPS, Problem solving, API Integration

WORK EXPERIENCE

Virtual Intern - Infosys (Springboard)

Dec 2025 - Feb 2026

I worked on the project NeuroFleetX: AI-Powered Urban Fleet and Traffic Intelligence, gaining practical exposure to AI-based traffic analysis, fleet optimization, real-world problem solving, and data-driven system design.

PROJECTS

AI Powered Notes | React, JavaScript, Python, REST API

[Github](#)

Built a full-stack AI-powered note-taking app with a React frontend and Python backend. Deployed on Vercel with a decoupled REST API architecture for intelligent note management.

Chat App | Springboot, React, JavaScript, Docker, REST API, WebSocket

[Github](#)

Built a real-time full-stack chat application with a Java Spring Boot backend and React frontend. Containerized using Docker Compose for streamlined deployment with WebSocket-based instant messaging.

ACHIEVEMENTS & CERTIFICATIONS

- Solved 500+ problems on Leetcode
- Certifications: AWS Cloud quest, Java programming (infosys, Hackerrank)
- Participated in IIT Madras 24-Hour AI Hackathon (2024).

EDUCATION

Integrated M.Tech in Computer Science and Engineering

2023 – 2028

Sri Krishna College of Engineering and Technology
